

# **Review of the processing strategies of the ACs, stations and open discussion points**

*Romero, I.*

**European Space Operations Centre, GERMANY**

This presentation will summarize the processing strategies and models of the analysis centres who have already agreed to participate in the IGS reprocessing effort. Guidelines for the station selection of the individual analysis centres will be given to achieve an optimal coverage of the IGS network by the reprocessing. The options for the standards which have not been agreed until now will be discussed and finalized.
